DIGITAL WAYFINDING SOLUTIONS

# FIND YOUR WAY IN 1, 2, 3.
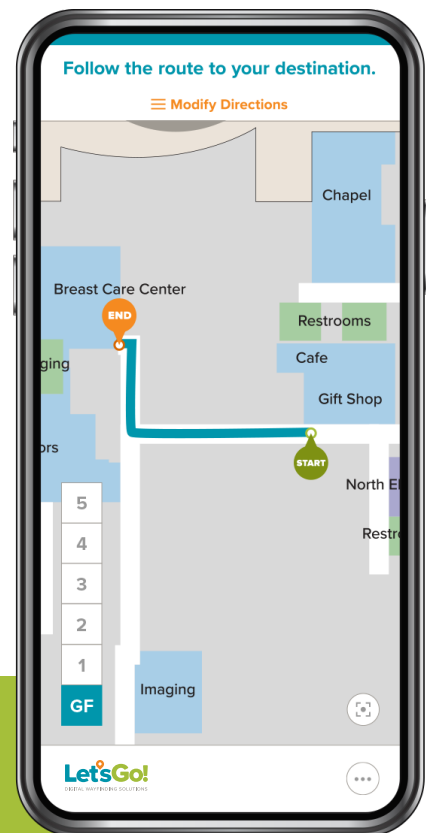

## NO HARDWARE INSTALLATION OR APP DOWNLOADS

**1** QR codes are placed at key locations throughout the grounds. Users point their phone camera at the QR code, generating a link to follow.

**2** Let's Go! asks the user where they would like to go. New destinations may also be accessed from this menu at any time, making finding your way easy!

**3** Directions to the desired location are presented to the user on their mobile device. Users may pick another destination point at any time.

QUICK AND EASY WAYFINDING FOR A MYRIAD OF APPLICATIONS

Our intuitive wayfinding solution can be the perfect solution for your customers—indoor and outdoor. Let's Go! is perfect for airports, museums, amusement parks, shopping malls, grocery stores, healthcare organizations and more! Anywhere users have issues finding their way due to unmarked, confusing and often mislabeled routes, our digital wayfinding solution is a perfect fit.

- Customized maps of the area and grounds
- Let's Go! can be fully customized to match your existing brand
- Works on existing systems – no hardware to install
- Easy implementation by the Let's Go! team
- Replaces printed maps entirely, making sure destination routes are always updated and accurate for users
- Routing available even from garage parks to the destination.
- Subscription pricing model - no capital expenditure
- No installation fee
